當今的酒吧空間已經超越了基本的休閒娛樂功能，不僅是都會人調劑壓力與交誼的重要場所之一，也提供了一種抽離現實的異想體驗。Nova位於香港中環核心地段的商業大樓，鄰近聞名全球的蘭桂坊，是潮流人士喜愛的聚集地。

Nova是一座不規則基地，位於大樓邊間，因雙梯區的切割產生了多個畸零角落。在整體規劃上，設定左側梯區為主要的聯外動線，將毗鄰梯區的角落空間規劃為廚房、廁區。位於基地中央的梯區運用隱藏式入口修飾，作為貴賓通道使用，可由此捷徑進入獨立貴賓室，保護貴客的隱私。

全案設計的關鍵靈感是店名Nova。Nova意喻新星，當新星爆發的時候，會突然增加亮度、綻射能量，設計師以「爆發及炫耀光芒」的概念詮釋全案造型，打造出科幻奇想的視覺效果，藉以描繪空間、時間與能量所交融下的耀眼時刻，透過這座奇想式的宇宙時空，帶引賓客自現實生活短暫抽離。故事發生在遙遠的星系裡，一顆新星爆發的瞬間，豐沛能量釋放而出，此時受到能量撞擊，星球碎片與能量線散射於宇宙之中，交織成瑰麗而奇幻的景象，也開啟了令人興奮的新篇章。賓客就像是遊走於星際之間的宇宙公民，見證了這個耀眼時刻，參與著熱烈的慶祝活動，享受歡樂氣息。

本案特意密閉採光窗口，以建構出神祕深邃的背景，示意宇宙的遼闊無垠。設計師利用LED燈管散射於天花板，將各個場域巧妙地串連起來，這些光束意喻著星球爆發瞬間擴散的能量，光束色彩的餘暉則暗喻著宇宙間神祕未知的訊息。

在設計師的想像中，新星爆發也是萬物誕生的初始，帶來欣欣向榮的發展希望，這個消息振奮著宇宙公民，也引發了許多歡慶活動。Nova以不規則的立面造型，配以燈光、影像、裝置等手法，從多種角度述說了歡慶的動態。空間局部使用反射材質，它們是星體碎片的軌跡，也是造型各異的視窗，幽微的聯繫了整個星系。賓客就像是見證宇宙事件的參與者，透過碎片的鏡像能看到不同區塊正在上演的動態，獲得鄰近場域的片斷訊息。而散落的坐席就像是高速飄浮於太空中的行舟，局部牆面的LED螢幕則是捕捉風景的窗口，不停播放的動感視頻渲染了歡慶氛圍。

通往廁區的走廊亦經過精心設計。這座窄長的隧道，利用燈光與鏡面反射織構成光速之網，讓賓客穿行於神祕的時空隧道裡。設計師運用燈光、裝置、影像手法，將想像式的宇宙凝縮至現實空間中，邀請賓客成為宇宙事件的參與者，掙脫現實束縛，在眩目景象裡啟動內心深處的奇幻想像。採訪」劉蕙蘋

1. 透過不規則的立面造型，結合燈光、裝置等手法捕捉環境動態。2. 以鏡面材質比喻星體碎片的軌跡，加深整體情境的奇幻效果。

1. Irregular patterned metal panels on the surface of the interior 2. Mirrored reflections give a strong visually hallucination to viewers

A nightclub and bar is a good place not just for social needs but also releasing pressure from daily work. Nova, located in a core position of Central near the famous Lan Kwai Fong district offers people a place to hang out after hard work.

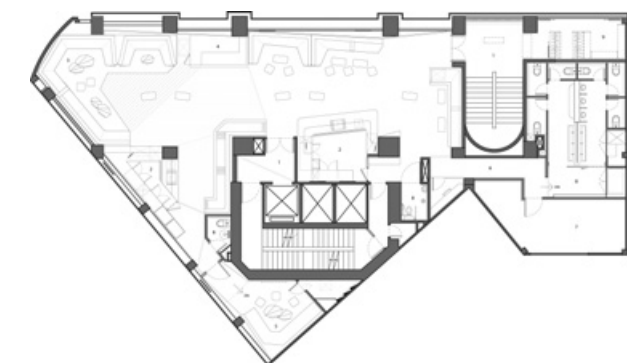

Nova has an irregular shaped site squeezed between two buildings. Also its two service staircases dissect the space into several broken zones. The plan uses the left staircase for pure service needs and places the lavatory, storage and kitchen around it to receive quick circulation. Another staircase is for customers to use and easily access the independent rooms for VIP customers.

The design concept is inspired by the name Nova taken from the astronomical phenomena as a star that suddenly becomes thousands of times brighter. This is also an analogy for how a

nightclub is a new star that immediately blinds one's sight and brings fantasy to real life. All customers seem to be travelers who gaze in wonder about the beauty and receive an immediate shock above their heads.

Almost no exterior light is allowed inside, darkness bring a sublime abyss while immediate light sparks from up above and radiates into colorful and fast rays. This signifies life is about to come into being and will be good. The interior partitions are clad with materials that reflect light or are opaque to reveal nebulous views of the Universe. The seating layout gives the impression of a starship; some are scattered and some are fixed to certain "windows". LED screens broadcasting images give views similar to those from a starship in an unknown Universe.

A pathway leading towards the lavatory is carefully designed. It is a tunnel covered with mirrors and custom designed lighting fixtures. Entering the pathway is like taking a trip to the deepest part of the Universe, a trip into an unknown territory.

3. 空間局部使用反射材質，透過鏡影效果讓視線可看望鄰近場域的訊息。4. 利用LED動態影像以及燈箱圖片豐富空間的感官層次。5. 空間結合了影像、裝置、燈光，經營著熱烈氛圍。6. 平面圖。  
3. Reflective and non-reflective materials give strong illusionary impressions 4. LED lighting boxes and dynamic fresh images gives exciting sight 5. Lighting, fresh images, and skewed installations increase the visual interest of the space 6. Plan

7. 螢幕如同捕捉流動風景的窗口，加深了星際活動的熱烈氣息。8. LED燈管散射於天花板，同時也將各個場域巧妙地串連起來。9. 通往廁區的長廊，利用燈光與鏡影構成出光速之網，賓客就像穿行於神祕的時空隧道。10. 廁區壁面綴以鏡面和燈管，為狹小的空間拓展出深邃感受。

7. Screens are more like windows that catch views of an unknown space 8. LED tube shaped lighting illuminate ceiling part 9. Pathway view - a gateway that welcome embarkation to space travel 10. Lavatory view
